Introduction

The house of Artisticks offers a vast range of T, L and Flat Profiles made from brass. They come in a variety of colours like gold, rose gold and silver and also finishes like plain, etched, texture etc. Most of them are embellished with classic patterns like geometric designs, Subtle florals and other traditional and contemporary patterns. One can choose the material, colour, finish and pattern based on the area where it is used and also your décor aesthetic.

Depending on where it is used, you can choose the profile with the appropriate thickness.

The T, L and flat profiles from Artisticks are widely used in doors, cabinets, wardrobes, console tables, wall panels etc. They are even used for dining table edges, bathroom storage units as well as in the puja room panels. Suitable to use on a variety of surfaces, they add plenty of grace, charm and class to the space. It is key to note that these profiles are user friendly and can be easily installed or fitted onto the base surface. They are easy to maintain and are sure to add the ideal finishing touch to any space and furniture.

Do check out the whole range in this catalogue and take your pick today.

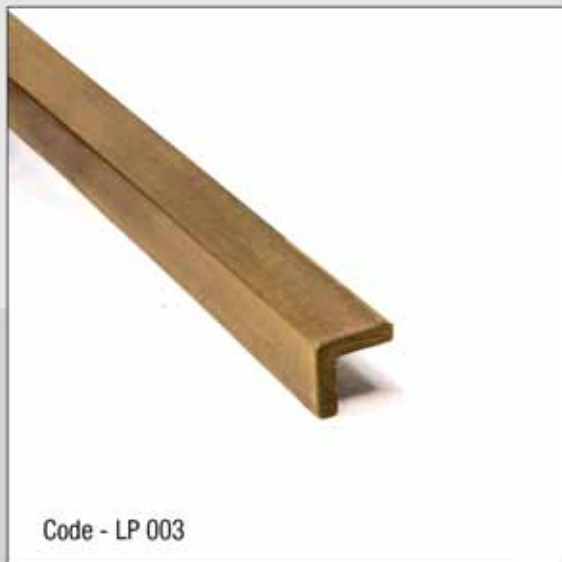

Happy Shopping!
